## PREFATORY NOTE

This catalogue consists of three parts: (I) A list of all officers of the College; (II) The names and addresses of graduates; (III) A geographical index of graduates.

The lists of officers are arranged in groups, each group being in chronological order with the exception of the lists of Instructors and Assistants. For convenient reference these are arranged in alphabetical order.

Part II is arranged alphabetically by classes. An effort has been made to obtain the official position and address of every living graduate, also to ascertain the date and place of death of decedents.

The Geographical Index, Part III, is arranged alphabetically by states and by cities in each state. In instances where the business and residence addresses are in different cities, the name appears in the lists of both cities.

Information regarding errors or omissions will be welcomed.

ELIDA YAKELEY.

Registrar's Office,  
Michigan Agricultural College,

## GRADUATES OF THIS COLLEGE WHO HAVE RECEIVED THE DEGREE OF MASTER OF SCIENCE

From 1861-1878, the degree of Master of Science was conferred upon those graduates of three years' standing, who made a proper proficiency in scientific studies.

From 1879 to 1882, in addition to the above, the graduates were required to present an acceptable thesis upon some topic assigned by the faculty.

Since 1882, the graduates have been required to spend at least one year in this college in a course of post-graduate study, presenting at the close an acceptable thesis. Study *in absentia* was permitted under certain conditions until 1898, since which time the residence for study has been strictly insisted on.

## EXPLANATORY NOTE

It was the intention to publish this volume in 1910, ten years after the last similar catalogue was issued. The publication has been delayed for one year but it was thought best to complete the lists of officers and graduates only to the close of the college year, 1910, with the exception of the names of the graduates of 1911. The College expects hereafter to issue the catalogue at the regular ten-year periods.
